Access Consultant – Level 2

Architecture & Access (Aust) Pty Ltd (T/A Architecture & Access), a renowned leader in the field of accessibility, is seeking a Level 2 Access Consultant to join our Access Consulting team. Architecture & Access is a specialist consultancy firm to the built environment - creating safe and accessible community facilities, workplaces and homes for people with disability.

Access Consultants ensure that buildings are designed and constructed in line with the Disability (Access to Premises – Buildings) Standards 2010, Australian Standards related to safety and access, and the Disability Discrimination Act, considering the access needs of all users particularly those with physical and sensory disability.

The Access Consultant (Level 2) leads multi-disciplinary project teams, delivering high quality access consulting services across a full range of service types including access audits of new and existing buildings, plan reviews, and professional opinion reports.

The role works in close consultation with company clients including architects, building surveyors and project managers to provide advice and products to meet their needs, legislative requirements and quality standards.

The role undertakes a commitment to participate in mentorship, training and workforce development programs to build professional skills and assist in the development of less experienced staff.

Salary range: 71,500- 93,000K including Superannuation

Knowledge, experience and skill requirements:

- Two to five years experience providing a wide range of access consulting services.
- Demonstrated competent applied knowledge of Disability (Access to Premises – Buildings) Standards 2010 and Australian Standards related to safety and access, Building Code of Australia, National Construction Code.
- Proficiency in reading architectural plans.
- Demonstrated high-level communication, negotiation and conflict resolution skills.
- Capacity to work collaboratively as part of a team.
- Current driver's licence.
- Capacity to undergo a work health medical examination as required.

Qualifications - essential or desirable

- Accredited Member of Association of Consultants in Access Australia (ACAA).
- Cert IV or Diploma Access Consulting or equivalent experience.
- Tertiary qualification in health science, design, building surveying or architecture highly desirable.

If you are a proactive, professionally presented person and want to be part of a growing organisation, this could be your next long-term role.
